APARTMENTS | MIDLAND

DE•HAVILLAND

INTRODUCTION

Inspiring a new generation of apartment living in Perth, the DeHavilland apartments combine sophistication and thoughtful design, with modern and environmentally sustainable building principles and practices. This coupled with a convenient and established location, the apartments hold a synergistic and futuristic vision for a clean and green lifestyle and as such reflects the true art of contemporary living and where we are headed.

The innovative timber construction method used heralds the way forward for sustainable developments in WA. Combined with initiatives like double stacked car bays, electric car charging ports, large “New York” loft style design aesthetics, quality fixtures and connected location offers a truly unique and environmentally friendly lifestyle option.

LOCATION

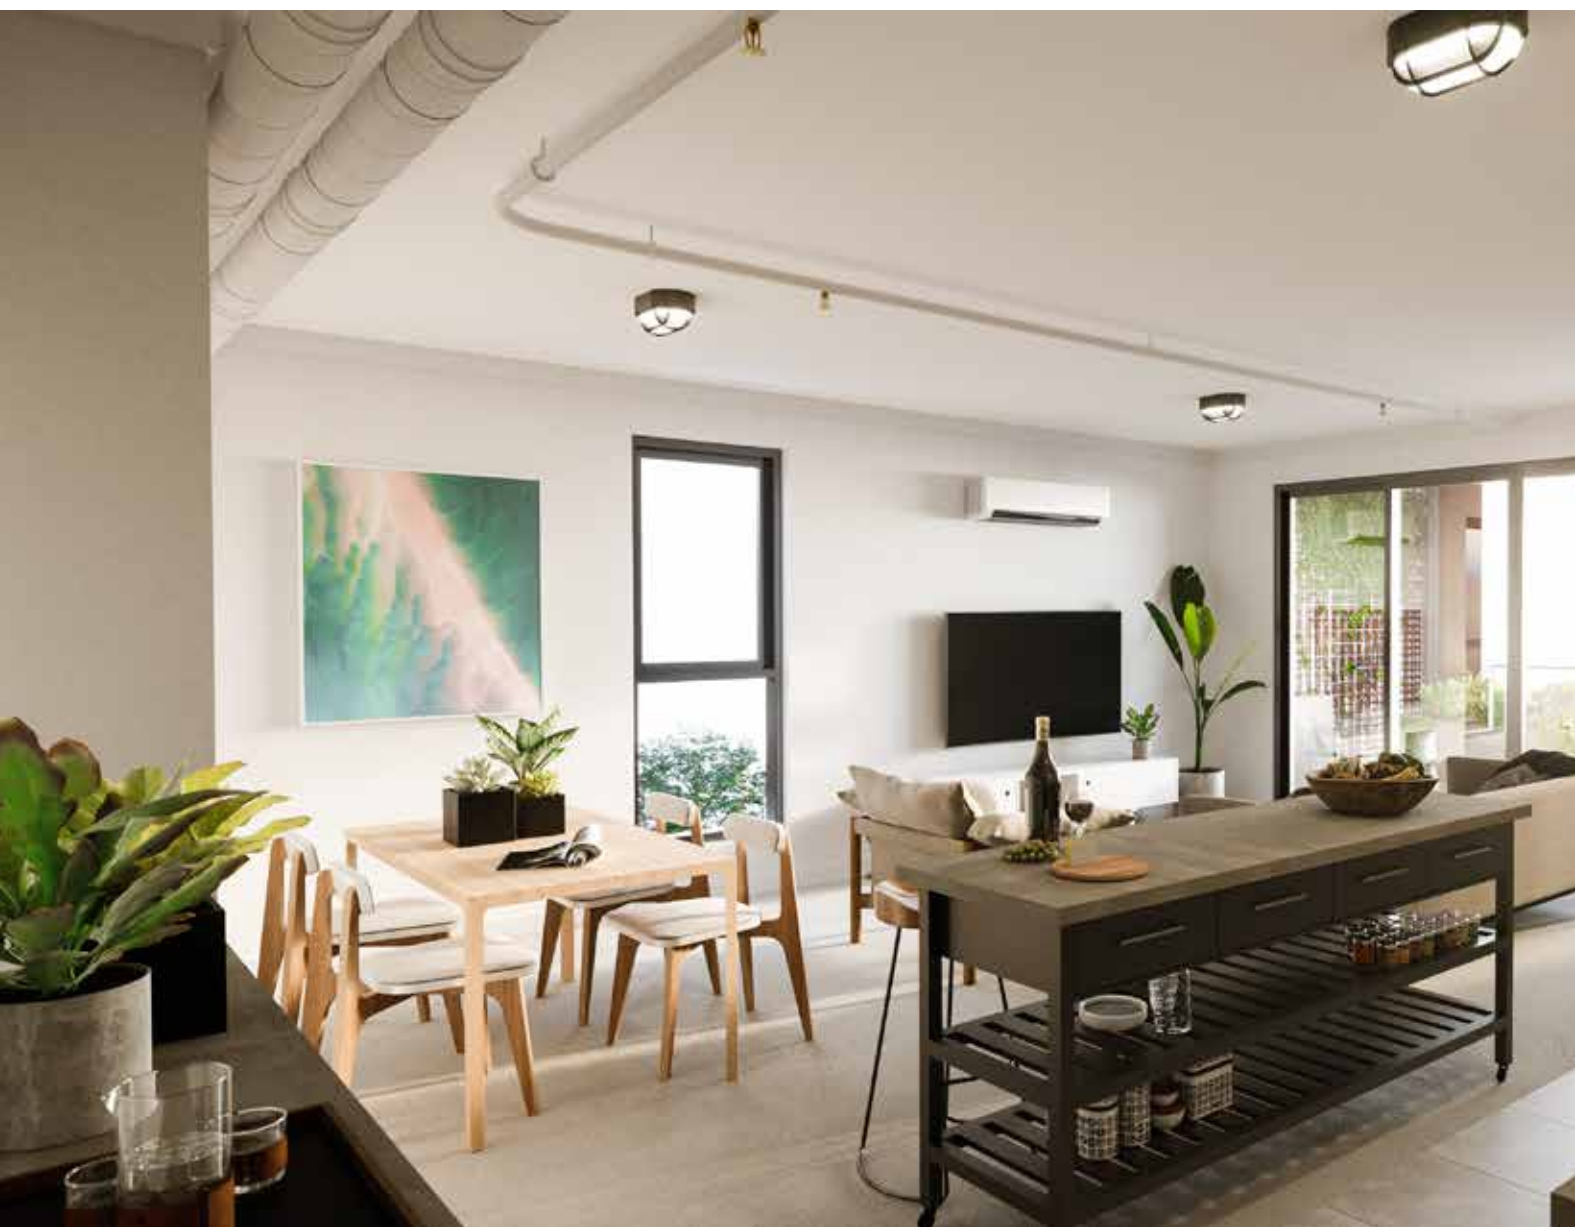

Located in the heart of the newly redeveloped area of Midland, Dehavilland is surrounded by strong history, heritage architecture, art and culture. Great infrastructure coupled with improved health care, education, and entertainment services in this established suburb means that you can live a life that is holistic, convenient and well connected. Fantastic transport links walking distance away and easy connection to the major arterial roads also puts you an easy 16kms from the Perth City hub.

LIFESTYLE

Mirroring the urbanisation and redevelopment of the area, Dehavilland offers you an opportunity to live an environmentally sustainable lifestyle within a vibrant culture that is rich in industrial history, sustainable growth and innovation.

Trendy coffee shops selling organic coffee, local street art and evening markets, an easy stroll to the bookstore or museum, picnics with family and friends at the park or fine dining at Swan Valley only seven minutes away are some of the things that make living at DeHavilland a truly rich and fulfilling environment to thrive in.
